

T3 Gallery

TODO

-[] Make it deploy (vercel)

- ☐ Scaffold basic ui with mock data
- ☐ tidy up build process
- ☐ Actually set up a database (vercel postgres)
- ☐ Attach db to ui
- ☐ Add authentication (clerk)
- ☐ Add image upload
- ☐ Error handling/management (Sentry)
- ☐ Routing/image page
- ☐ Delete button with Server Actions
- ☐ Analytics (posthog)
- ☐ Rate limiting (upstash)
